I am a skilled and dedicated frontend developer with a strong foundation in full stack development, particularly in the MERN (MongoDB, Express, React, Node.js) stack. I bring a balance of creative design and practical coding skills to create seamless and visually engaging user experiences. My experience spans both contract and in-house roles, where I've honed my expertise in building responsive and dynamic web applications with a focus on performance, security, and user-friendly interfaces.

SKILLS

- Web Design
- Design Thinking
- Front End Coding
- Problem-Solving
- Computer Literacy
- Project Management Tools
